# Short & Sweet

Sometimes, love is Short & Sweet,

Enter – Anima Visual and our new Elopement service, where we capture love at lightning speed!

We're here to add some serious zing to your elopement with our bespoke photography and film service. We're all about telling your love story with just the right amount of fun and flirt.

Elopedments are all about embracing spontaneity and throwing traditional wedding plans out the window like they're yesterday's leftovers. And that's exactly where we come swooping in with our cameras, ready to capture every giggle, every stolen kiss, and every awkward attempted dance move.

Because let's be real – sometimes extraordinary comes in small packages! After all, size isn't always everything...

# Elopement Packages
